4 DELIVERY, STORAGE AND USAGE CONDITIONS

4.1 TRASPORTATION

The transport is organized in the cleanest and best technical conditions to preserve the bags at their best. Transportation is done in covered lorries. Upon arrival if any damaged goods is noticed, it must be registered in written on the packaging list and duly signed by the vehicle driver, without this no claim procedure can be started and therefore no compensation can be given for the damaged goods.

4.2 STORAGE

The storage facilities must be in the cleanest and best technical conditions to ensure a good preservation of the goods. The bags must be kept in their original wrappings in the warehouse, at a temperature between 10°C and 30°C with relative humidity between 50% and 70%. Avoid direct exposure to sunlight and sources of heat.

Storage in conditions other than those indicated above may alter the characteristics of the material. A period of acclimatization in the production department for at least 48 hours before use is recommended.

5 COMPLAINTS

In case of complaint the customer must return to the supplier the “Label” of the claimed box together with representative samples of the defect. Without this no claim procedure can be started and therefore no compensation can be given for the damaged goods.
